Child Safety and CSAE Protection Standards

Last updated: 2025

1. Introduction

Our application is committed to protecting all users, especially children, from any form of child sexual abuse and child exploitation (CSAE). We enforce a zero■tolerance policy against Child Sexual Abuse Material (CSAM) and any harmful behavior involving minors.

2. Legal Compliance and Standards

We align with:

- Local and international child protection laws

- WeProtect Global Alliance — Global Framework

- Tech Coalition — Project Protect Principles

- NCMEC reporting standards

- INHOPE reporting networks

3. Prohibited Content and Behaviors

3.1 Child Sexual Abuse Material (CSAM)

- Any media depicting sexual content involving minors

- AI-generated, manipulated, or illustrated depictions of minors in sexual contexts

- Sexualized communication or requests involving children

3.2 Child Abuse and Neglect

- Physical, emotional, or psychological abuse content

- Grooming, manipulation, threats, or coercive behaviors

3.3 Safety Risks

- Requests for minors' personal information

- Inappropriate communication with minors

4. Detection Technologies and Procedures

4.1 Automated Systems

- Hash-matching technologies (e.g., PhotoDNA)

- Machine learning models for harmful content detection

- Real-time upload scanning

4.2 Human Review

- Trained safety specialists handle manual review

- 24/7 escalation workflow for emergency threats

4.3 Privacy Protection

- Detection systems are used strictly for safety purposes

- User privacy preserved through minimal data access

5. Reporting and Enforcement

5.1 User Reporting Tools

Users may report:

- Harmful content

- Suspicious interactions

- Urgent safety concerns

5.2 Enforcement Actions

- Immediate removal of violating content

- Account suspension or permanent ban

- Mandatory reporting to legal authorities when required

- Reporting to NCMEC or relevant national hotlines

6. Preventive Child Safety Measures

- Pre-upload safety filters

- Detection of risky account behavior

- Enhanced safety flows for underage users

- Parental and youth safety guides

7. Transparency and Auditing

Annually we publish:

- A transparency report

- Statistics on CSAE detection and enforcement

- System improvements and safety metrics

We also undergo third■party compliance audits.

8. Contact and Emergency Reporting

Users can report issues through:

Email: safety@application.com

Emergency CSAE Report: /safety-report

National child protection hotlines (auto■routed based on region)
